3	20	G9 240v	Yes	2700k	5.95	5.45

With the discontinuation of most halogen lamps, these LED capsules now directly retrofit as they are much the same size. They are now available in 4000k too, but are mostly not dimmable. The 12v lamps are suitable for many existing transformers.

LED 2DS TO REPLACE EXISTING LAMPS

WATTS	EQUIV	PINS	DIMMABLE	COLOUR	PRICE EA	PRICE 10+
8	16	2	No	3500k	8.45	7.95
16	28	4	Yes	3500k	10.45	9.95

These lamps are a 'quick fix' for many existing fittings. The 8w works with magnetic ballasts and saves about 65% energy. The 16w works with high frequency ballasts and saves about 60% energy. Neither will work in an emergency fitting.

18	38	No	No		16.45	15.95
12*	28	Yes	Yes		25.45	24.95

These lamps contain their own ballasts and therefore are best used in fittings without their own ballasts such as those in our Light Fittings pages. You can use them in existing fittings by bypassing the existing ballasts. *The last item has a microwave sensor and dimmability to save further energy in corridors.

LED EQUIVALENTS TO COMPACT FLUORESCENT LAMPS
